- High Quality TFT and graphic LCD manufacturer
- Next generation graphic modules 128x64
- Specialists in Sunlight readability and wide viewing angles/extended temperature.
- Supportative of low volume niche and large mass production

S-Conn has an extensive range of connectors that are primarily used in industries of communications and information processing for products such as data communications, cellular phones, CATV, GPS technology and other RF applications. The product mix includes, RF Coaxial connectors, 1.0/2.3 Series, 7/16, Din Series, MCX Series, MMCX Series, N Series, SMA Series, Reverse Polarity, TNC Series, BNC Series etc.

COMPONENT SHORTAGES?

Call Captron!

Captron would like to inform you of our strong ability to supply short fall component requirements.

If a particular item is not exstock, we can generally procure any electronic component whether it be semiconductor or passive component within 7 days from receipt of order.

Please kindly update your database to ensure we receive any further shortfall requirements within your organisation.

We are eager to demonstrate our effectiveness in this area!!

If you would like to send us a RFQ, please send us an email with your requirements or call us on 0800 105 208

Global Sourcing, Local Inventory

Captron is a wholly New Zealand owned and operated company which specialises in the supply of Japanese/Asia Pacific, European & USA sourced electronic components.
